

# New Orleans

MAY 14-17 & OCTOBER 22-25, 2012

*Cooking class*

New Orleans is one of the top food destinations in the world and possesses a culinary legacy like no other city. They create, consume, and celebrate food and drink here with their own brand of Southern *joie de vivre* and honor their history – from Po boys to the classic crawfish etouffee. The French Quarter's landmark restaurants, with their long storied pasts, and the other legendary eateries have contributed to the legacy and the building of a contemporary Creole movement. New restaurants offer exciting riffs on traditional dishes. Combine that foodie ambiance with art and architecture, an indomitable spirit – and *all that jazz*.

Our 4-Day/3 Night independent package will envelop you in New Orleans' celebrated foodie culture with a unique cooking lesson and special-to-New Orleans-dining experiences, market and museum visits. There's lots of flexibility and time to explore and discover this city on your own.
